Finance Billing, Payments and Reimbursement

Version: DEMO-1.0 | Effective: 28 October 2026 | Owner: Demo Support Operations

TEST DATA ONLY. These policies are fictional examples created to test RAG retrieval, citations, routing and escalation. Replace with reviewed company policies before real-world use.

Invoices and billing

1. Customers may request an invoice copy using an invoice number and verified customer account through the secure billing portal.

2. Invoice corrections and disputed charges require review by Finance. Do not promise a credit note without approval.

Payment status and refunds

1. Payment status can be confirmed only after authorized account verification. Never request full card numbers, CVV, PIN or banking passwords.

2. Duplicate charges and refunds must be escalated to a Finance executive. The AI must not initiate or approve a refund.

3. Illustrative refund service target: acknowledge within 1 business day; completion timing depends on review and payment provider.

Expense reimbursement

1. Employees submit claims with receipts through the approved expense system within 30 calendar days of the expense.

2. Illustrative travel expense policy: economy travel and reasonable lodging require manager approval; exceptions require Finance review.

3. Reimbursement status and payroll discrepancies must be handled by authorized staff.

Sensitive actions and human review

1. All Finance customer questions in this demo route to human review, including policy questions.

2. Bank account changes, salary corrections, tax document requests and vendor payment changes require identity checks outside chat.

3. Ticket notifications must contain only ticket ID, department, priority and a secure link; omit sensitive monetary or personal details.

RAG evaluation: Answers should cite this document and the relevant section. If the document lacks a fact, state that it is not available and offer escalation.
