Sales Products, Pricing and Customer Requests

Version: DEMO-1.0 | Effective: 28 October 2026 | Owner: Demo Support Operations

TEST DATA ONLY. These policies are fictional examples created to test RAG retrieval, citations, routing and escalation. Replace with reviewed company policies before real-world use.

Demo service catalog

1. Standard Support: business-hours email support, knowledge base access and basic reporting.

2. Premium Support: priority support queue, advanced reporting and quarterly service reviews.

3. Enterprise Support: dedicated account coordination, custom onboarding and negotiated service-level terms. These are illustrative packages, not actual offerings.

Quotes and pricing

1. For a quote, gather product or service tier, number of seats, intended start date, contract term and a business contact.

2. Public list prices are intentionally omitted from this demo document. Do not invent pricing or promise discounts.

3. Custom pricing, orders of 100 or more seats, contract modifications and discounts above 10% require Sales manager review.

Renewals and changes

1. Renewal requests should include current contract ID and desired term; verification occurs in the CRM.

2. Plan changes may be effective on the next billing cycle, subject to signed terms and Sales approval.

Escalation and handoff

1. Escalate requests to speak with a salesperson, pricing exceptions, binding quotations and account-specific contracts.

2. If a product capability is not in the knowledge base, explain the limitation and offer a Sales ticket.

RAG evaluation: Answers should cite this document and the relevant section. If the document lacks a fact, state that it is not available and offer escalation.
